Experience

Web Developer

Feb 2022 to Present

Infodeal technologies Pvt Ltd

Internal Tooling Dashboard

- **Tools & Technologies:** HTML, CSS, JavaScript
- **Overview:** Developed a centralized dashboard for internal tools and resources, streamlining team operations.
- **Challenges:** Integrated multiple tools into a single cohesive interface to eliminate redundancy and improve access.
- **Outcome:** Improved team efficiency by 15%, leading to faster project turnaround times.

Customer Portal Revamp

- **Tools & Technologies:** Bootstrap, React
- **Overview:** Led the redesign and development of the customer portal to enhance user experience and engagement.
- **Challenges:** Redesigned complex UI/UX elements for better accessibility while integrating new features with the existing backend.
- **Outcome:** Achieved a 25% increase in customer engagement through improved interface responsiveness and performance.

Advanced Analytics Dashboard

- **Tools & Technologies:** React, Node.js, CSS Grid
- **Overview:** Developed a real-time analytics dashboard providing business stakeholders with actionable insights.
- **Challenges:** Integrated real-time data visualization with optimized performance using React hooks and asynchronous data fetching.
- **Outcome:** Enabled better decision-making, resulting in a 20% increase in sales through data-driven insights.

Custom CRM System

- **Tools & Technologies:** React, Node.js, MySQL
- **Overview:** Developed a custom Customer Relationship Management (CRM) system to help the sales and support teams track client interactions, manage leads, and optimize customer support.
- **Challenges:** Integrated features like customer segmentation, automated email follow-ups, and a real-time dashboard to monitor customer interactions.
- **Outcome:** Increased client retention by 20% and streamlined sales operations by reducing manual processes.

Personal Projects

Responsive React Portfolio Website

- **Tools & Technologies:** React.js, CSS, HTML, JavaScript
- **Deployed at:** <https://reactportfolionileshrajput.netlify.app/>
- Built a responsive portfolio website with React.js featuring dark and light theme switching for enhanced user experience.
- Ensured cross-device compatibility and optimized performance for desktops, tablets, and smartphones.
- Deployed on Netlify for seamless hosting and continuous deployment.

Financial App Landing Page

- **Technologies:** React.js, Tailwind CSS
- **Deployed at:** kobodropbynileshrajput.netlify.app
- Developed a dynamic landing page for a financial app using React.js and Tailwind CSS, featuring a modern and clean design.
- Focused on responsive design and high performance across various devices and screen sizes.

Independent Business Website Development

- **Tools & Technologies:** Bootstrap, CSS, JavaScript, and HTML.
- **Deployed at:** <https://nilrajput98.github.io/Eva-Traders-Bootstrap-1/>
- Designed and developed a fully responsive business website utilizing Bootstrap, CSS, JavaScript, and HTML.
- Leveraged Bootstrap components, including modals, forms, carousels, navbars, and images, to create an engaging and interactive user experience
- Ensured seamless functionality and visual appeal across various devices, highlighting strong proficiency in front-end web development and responsive design principles
- Implemented effective navigation and user-friendly interfaces, resulting in improved user engagement and a streamlined browsing experience for the site's visitors.

Education

- **Batchelor of Engineering in Computer Science**
University of Pune
CGPA 7.86
- **Maharastra State Board Of Education**
HSC 68%
SSC 86%
